

New BSPlink roadmap

The below document will outline the New BSPlink migration approach.

The roadmap and the dates for each BSP can be found in the appendix documents. These dates are always subject to change.

The migration from the Classic BSPlink to the New BSPlink will always guarantee Business continuity.
The user will be able to consult and work in the New BSPlink and Classic BSPlink at the same time until June 2021.

The users that are included in the roadmap and have access to the New BSPlink are Agents and Airlines.
Other users such as GDS, Third Party Users will be made available as of the first quarter of 2021.

The classic BSPlink will be accessible at any point in time, during Beta Version Phase and Classic BSPlink Backup phase.
Classic BSPlink is available until end of June 2021

Beta version Phase

- The user will access the classic BSPlink as their main platform, same as today. No change
- A beta version button will be available for the user to click and access the New BSPlink.
- Beta version data and business processes are synchronized Realtime with the Classic BSPlink.

Classic BSPlink Backup Phase

- The point where the user will automatically access the New BSPlink as their entry platform
- A button "Classic BSPlink" will be made available to go back at any time
- The switch for the Go-Live point may vary by BSP (see appendix A for timelines)
- Data and business processes are synchronized Realtime with the Classic BSPlink.

Beta phase

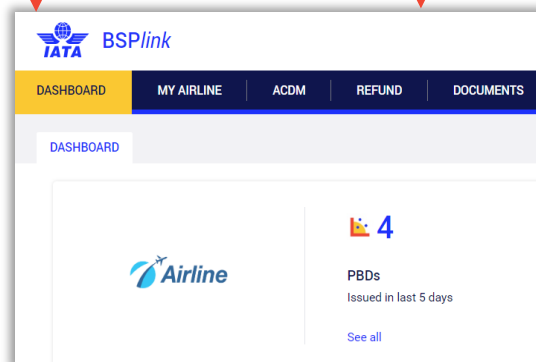

- **Classic BSPlink entry platform**
- Beta version access available
- Available at least 1 month

** Data and business processes Realtime synchronized between New and Classic BSPlink.*

Classic BSPlink

** Data + BP*

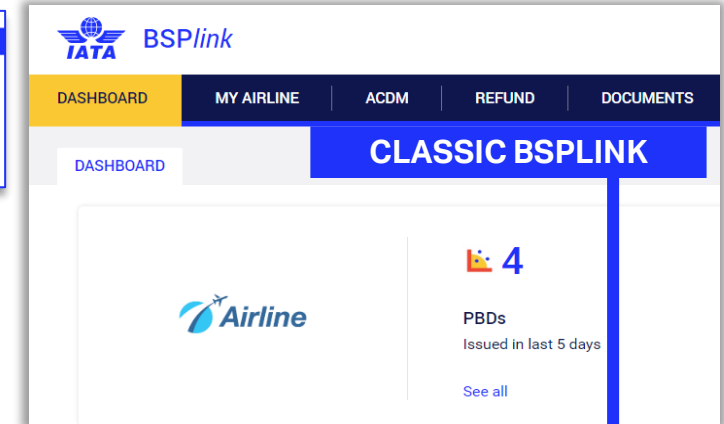

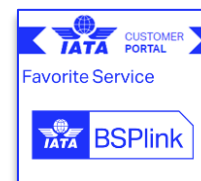

Classic BSPlink Backup

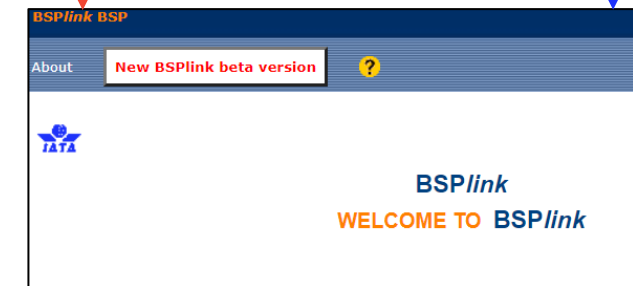

- **New BSPlink entry platform**
- Classic BSPlink accessible at all times

** Data and business processes Realtime synchronized between New and Classic BSPlink*

New BSPlink

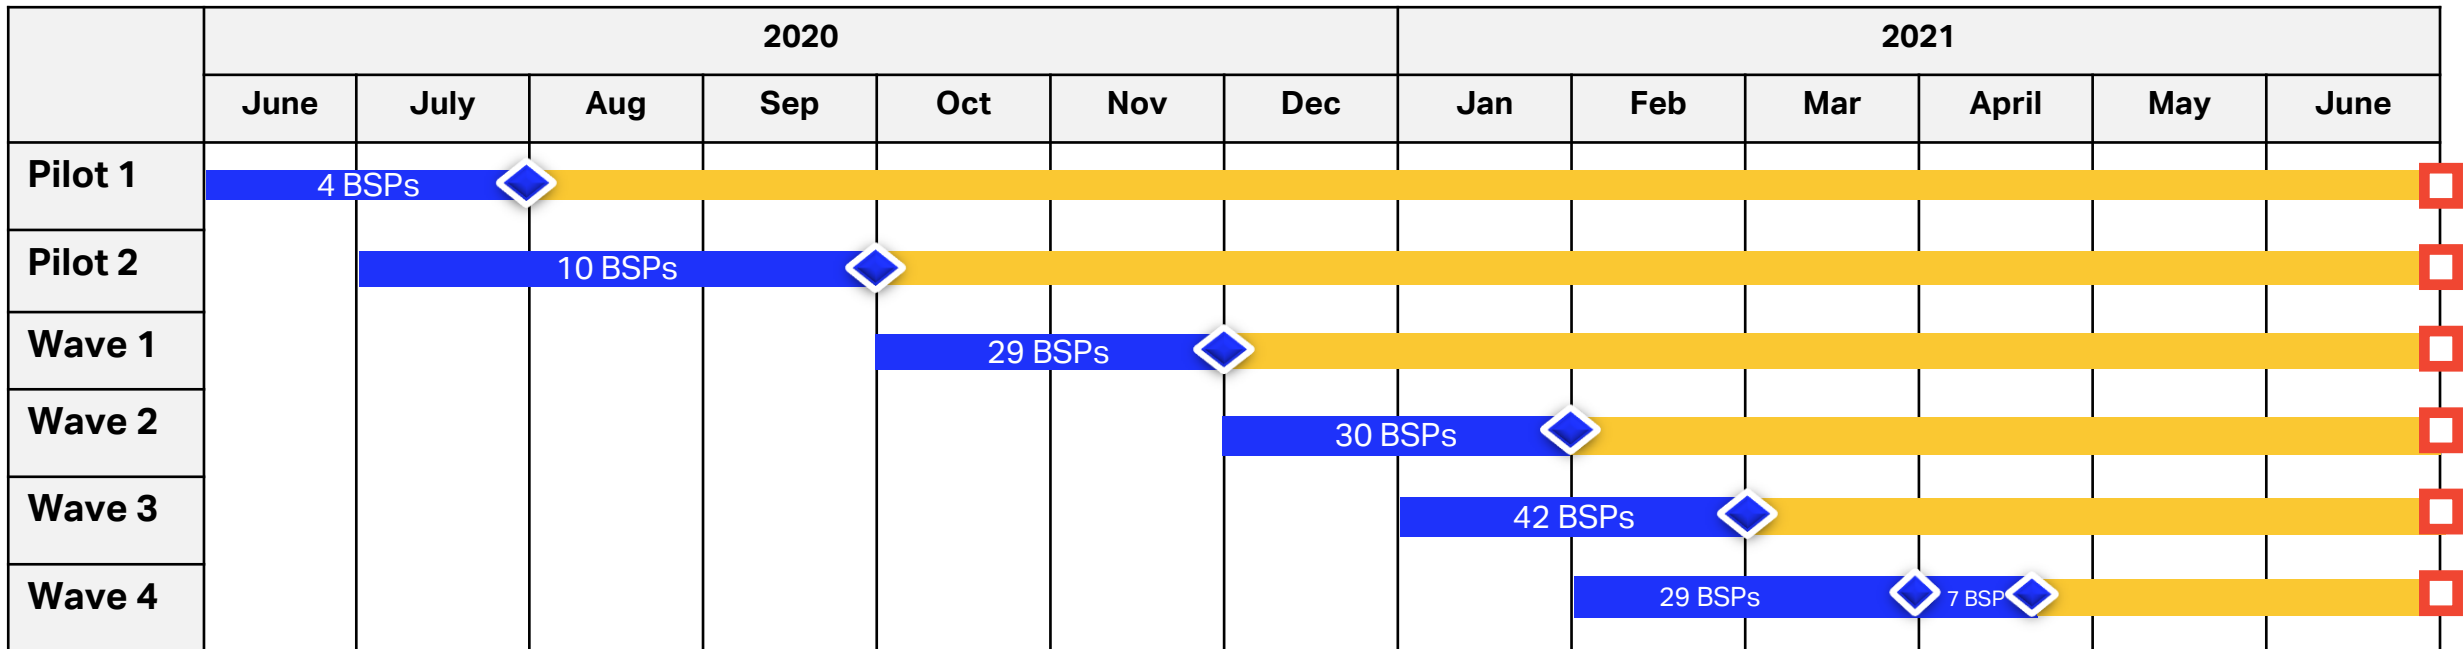

** Data + BP*

New BSPlink Roadmap - Agents

Data and business processes are Realtime synchronized between New BSPlink and Classic BSPlink

← Training available for users on IATA Customer Portal →

Beta phase

- Classic BSPlink main platform
- Beta version access available
- Available 1 month or more

Classic BSPlink Backup

- New BSPlink main platform
- Classic BSPlink accessible at all times
- Point of change may vary by BSP

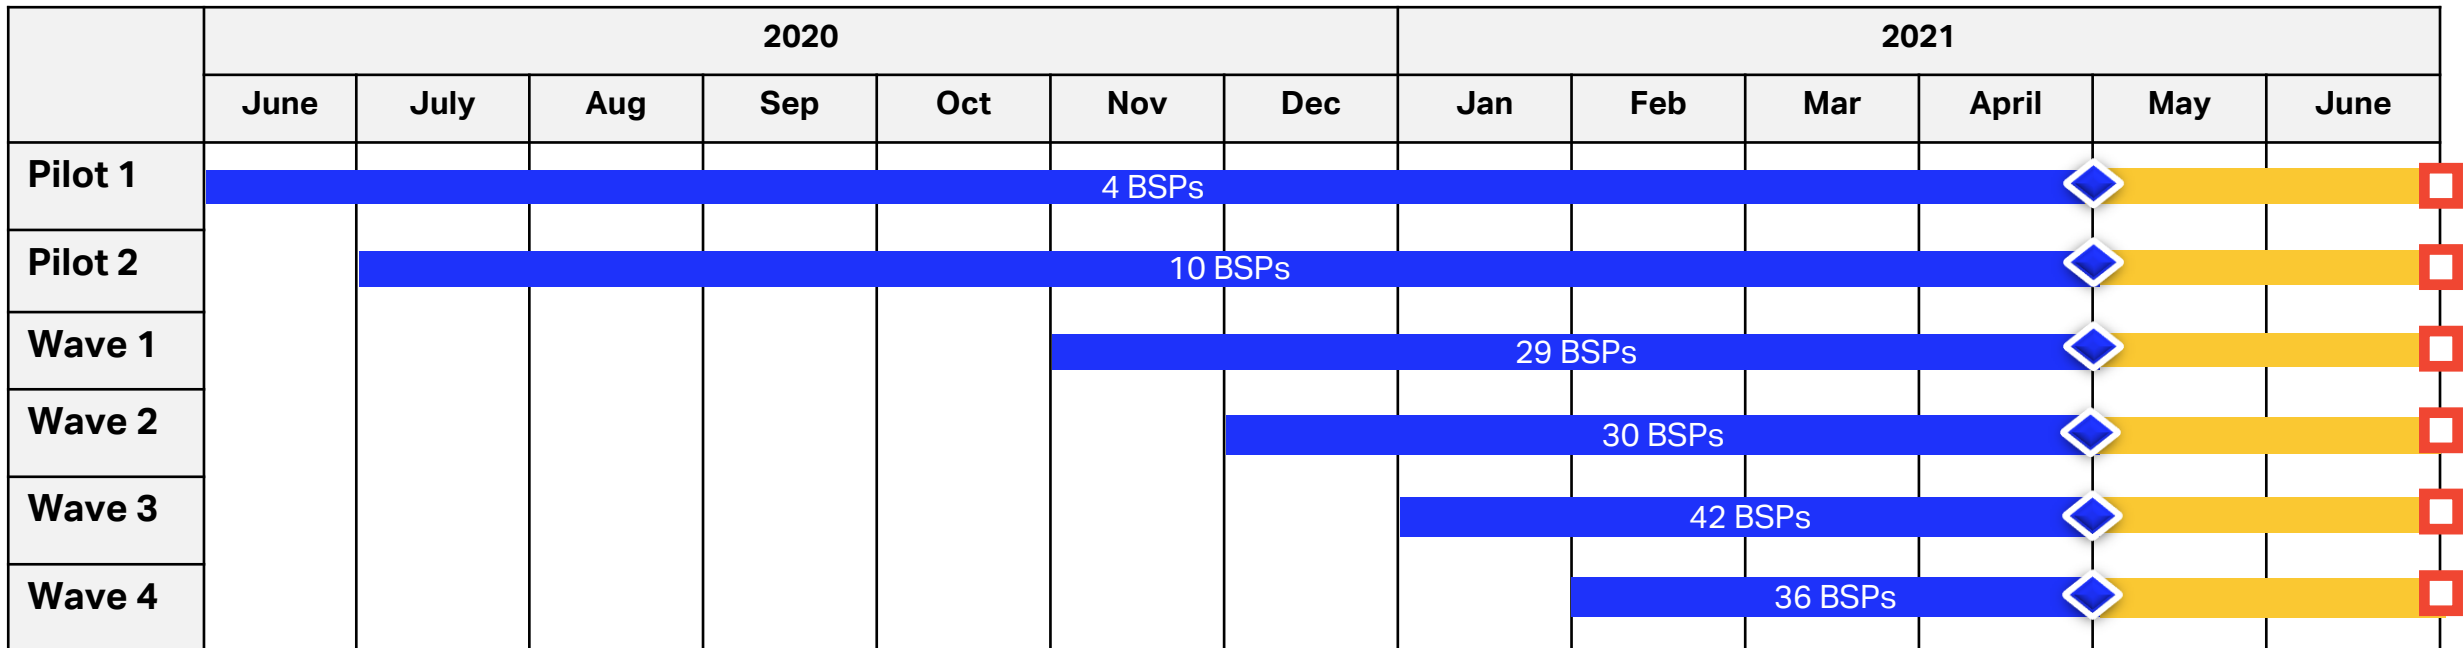

Classic BSPlink Deactivated

- New BSPlink **ONLY** platform
- Classic BSPlink **Decommissioned**

New BSPlink Roadmap - Airlines

Data and business processes are Realtime synchronized between New BSPlink and Classic BSPlink

← Training available for users on IATA Customer Portal →

Beta phase

- Classic BSPlink main platform
- Beta version access available
- Available 1 month or more

Classic BSPlink Backup

- New BSPlink main platform
- Classic BSPlink accessible at all times
- Point of change may vary by BSP

Classic BSPlink Deactivated

- New BSPlink **ONLY** platform
- Classic BSPlink **Decommissioned**

Appendix A

Pilot 1: 4 BSPs go-live in August 2020

BSP Code	BSP Name	Region	Wave	Beta Available	Go-Live Agents
FJ	Fiji	Asia Pacific	Pilot 1	6/1/2020	8/4/2020
MT	Malta	Europe	Pilot 1	6/1/2020	8/4/2020
MZ	Mozambique	Middle East and Africa	Pilot 1	6/1/2020	8/4/2020
MO	Macao	Northern Asia	Pilot 1	6/1/2020	8/4/2020

Pilot 2 (Wave 0.5): 10 BSPs in July – Aug 2020
