

MCTG – Chairman's report

Hannes Pferdekämper

Head of Technical Commercial Eurowings Technik & Chairman of MCTG

IATA

19th MAINTENANCE COST CONFERENCE

& 2nd MRO SMARTHUB USER FORUM

OCTOBER 4-6, 2023

Why are we here?

- High pressure on maintenance cost due to supply chain issues, labor shortages and inflation
- High maintenance demand after Covid recovery
- The market still highly regulated and characterized by monopolistic structures
- Comparability is tough and therefore possibility to benchmark limited

Solution: **Let's work together**

What is MCTG?

- Maintenance Cost Technical Group
- Group consisting of Airlines, OEMs and other delegates supported by IATA
- Mission: to be the focal point on commercial airline maintenance cost for the purpose of cost management & benchmarking
- The only annually updated worldwide database on maintenance costs

Steering Committee - Participating Airlines

All airlines are invited – let's grow the group!
